the outline of the origin, progress, and cure of every  
form of disease, contracted by promiscuous sexual inter-  
course, by self abuse or by sexual excess, with advice for  
their prevention, written in a familiar style, avoiding all  
medical technicalities, and everything that would offend the  
ear of decency, from the result of some twenty years success  
in practice, and carefully devoted to the cure of diseases of the  
delicate or private parts.

To which is added receipts for the cure of the above dis-

works of his kind, is not a quack.

is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to you, as a most fortunate, and to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH LONGSHORE, M. D.

FROM A. WOODWARD, JR., D. D., NEW YORK.

ARIZONA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organism, some of them of long standing, have come under my net, in which his skill has been manifest in restoring to health, and saving from the hands of the patient, as he would have considered beyond medical aid. In the treatment of Gonorrhea, Venereal Weakness, or disarrangement of the functions, produced by itself, abuse or excess of venery, I do not know his aid

"This is, without exception, the most comprehensive and intelligent work published on the class of diseases which it treats. Avoiding all technical terms, it addresses itself to the non-physician reader. It is free from all objections to the matter of authority, and is a most valuable addition to placing it in the hands of his patients. The author has devoted many years to the treatment of the various cutaneous diseases, and, with too little breath to puff, and too free the presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruits of his

A Presbyterian clergyman in Ohio, in writing of "Hunters Medical Manual," says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been jeeringly and scornfully treated, without realizing the sin and fearful consequences upon the soul and posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to break, and ultimately to destroy, this wide-spread source of sin and suffering would confer a blessing upon the next to the religion of Jesus Christ, on the human race."

coming generations. Intemperance (or the use of intoxicating drinks) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, your co-worker in the good work you are so actively engaged in.

proved that it is so universal and fatal as Wornen are de-  
stroyed by it, and if neglected it may prove  
ruinous. Then why will you hesitate when you can arrange  
to have a preventer in your house at very little expense, viz:  
*Dr. Hays' Universal Vermifuge*. The Medicine stands pre-  
eminent as the only one which expels Worms as truly  
remarkable. Perfect satisfaction shall be required.

ROMNEY, KY., July 10, 1858.

MR. B. F. HAYS—*Dear Sir*: I have been using your Ver-  
mifuge in my family ever since I have been acting as Agent  
for you. I have used Falmstock's, Jaynes', London's  
&c., &c., but they give you no satisfaction and prefer-  
ence over all others. I would recommend it to the virtu-  
ous as a valuable medicine.
